

Tally.Server 9 has tremendously improved the performance of my business and has helped me save over 100 man hours in the week. In fact, we changed our decision from hiring more resources to adopting Tally.Server 9 to manage our business operations.

**Amit Chandwar**, Executive Director,  
K M Trans Logistics Pvt. Ltd.

## Testimonials

We are very satisfied with the speed and security of Tally.Server 9. Reports can now be generated in 1/10th the time.

**Samir Lalani**, Director,  
Panchsheel Solvents

We are very happy with the drastic reduction in the time spent in processing vendor payments. We believe that now we can do more with the time, manpower and costs saved.

**Vinay Manghnani**, Managing Director,  
Obaid Masood Building Materials Trading LLC

# Tally.Server 9

*Tally*  
POWER OF SIMPLICITY

Optimize  
your business performance  
with **Tally.Server 9**

# Introduction to Tally

Over the years, Tally has been the market leader for business management products in the SME market space. Tally.ERP 9, Tally's flagship product has been designed on the principles of Simplicity, Scalability, Blazing speed, Reliability and Flexibility of business management operations.

Tally.Server 9 is an enterprise class product that delivers power and control in the hands of medium and large businesses to manage their ever growing business needs and to catalyse their business growth. Through Tally.Server 9, businesses will experience increased productivity, enhanced speed of operations, minimised indirect business costs and hence a superior business performance.

## Key operational highlights

1. **Speed with Concurrent Data Access:** Tally users are able to work faster without getting impacted by other users, thereby increasing organizational efficiency.
2. **Security and Control:** Administrator/Business Owner is able to control the visibility of physical data files and data access rights for all users, thereby minimizing the risk of data misuse.
3. **Monitoring and Optimization:** Administrator/Business Owner is able to monitor & track users' activities and also able to view real-time information on usage patterns. This helps to optimize user activities and increase productivity.
4. **Zero Downtime:** Tally users are able to work seamlessly even during data maintenance activities such as Data Backup etc.. The system ensures data consistency even in intense use environments and has zero impact of any abnormal client shutdown.

## Ease of Tally.Server 9 Deployment

Tally.Server 9 deployment at the business premises has the following advantages

1. Fast and efficient single step deployment
2. Requires minimal computer server infrastructure
3. Flexible and incremental deployment on diverse environments

## Benefits of Tally.Server 9

Through the implementation of Tally.Server 9, your business is assured of catapulting its growth because of the following benefits:

1. Instantaneous speed of operations enabling you to have immediate access to your information at your finger-tips. This facilitates, reliable and quick decision making and thus reducing turn-around times for your business operations.
2. Un-interrupted concurrent access to data, reports and information which ensures 100% data availability to all users simultaneously. This saves time for the organization so that the resources can be re-deployed in other priority tasks. This would result in optimal productivity
3. Zero waiting time and zero process queues ensures you have a hassle free experience with your system operations
4. Ability to scale power and capacity to adapt to an ever growing multi user environment backed by the capability to add additional users without compromising performance
5. High stability even in abnormal situations such as parallel read & write operations thus enabling you with empowered administration without downtime
6. Capability to monitor and optimize your business operations
7. High degree of security over data and information through authorized and monitored data availability
